Endurance Air Record Broken By Five Fliers

LOS ANGELES, Jan. 3.—(U.P.)—With the world's record for endurance flight while refueling already broken, the trimotored plane "Question Mark" cruised over Imperial Valley tonight bent on gaining further honors.

It acquired the record previously held by the Belgian aviators, Crocy and Groenin, at 8:33:46 p. m. when it had been in the air an hour more than their mark of 60 hours and seven minutes, as required in competitive flying.

The "Question Mark" was not in the vicinity of the Imperial county airport, its night base as the record was taken but appeared over the field at 9:55 p. m. The army ship's immediate objective was the mark of 65 hours 25 minutes set by the German fliers Ristiez and Zimmermann for sustained flight with only the original fuel supply.

If it passes this record at 12:51:45 a. m. Friday, the "Question Mark" will have been aloft longer than any heavier than air ship but the fact will not be the same as that of the German who flew

without taking on fuel.

New Marks

The army intends to send the "Question Mark" past other records until either the plane or its crew crack.

The "Question Mark" has been driven from its coast course by the fog and will fly a 60-mile route over Imperial Valley during the night, army officials announced.

When the fog closed in on Rock well field, San Diego, southern extremity of the coast lane the "Question Mark" has been following, refueling number one was ordered to leave there for Imperial county airport.

A refueling probably will be made over the valley after midnight.

Hercules Thieves Given Long Terms

MARTINEZ, Jan. 3.—William McConnell and Wesley Falls were sentenced to serve terms in Folsom prison today by Superior Judge A. B. McKenzie.

The two were charged with the theft of \$300 worth of lead from the Hercules Powder works at Hercules.

McConnell faces a life term, this being his third offense but he is eligible for parole after 12 years with a subsequent conviction carrying an automatic life term without hope of parole. Fall goes to Folsom as a second offender.

San Pablo Wars On Proposed Highway

Building of the cutoff road from the foot of Tank Farm hill into Richmond will be bitterly contested by the San Pablo chamber of commerce, according to a decision reached last night.

The chamber decided to employ Lee D. Windrem, a local attorney to contest the action of the board of supervisors in regards to the new road. No action is contemplated by the chamber at the present time.

Thomas Carlson, local attorney, was present at the meeting which

was held in the Country Inn, Carlson represented Supervisor Zeb Knott and explained to the chamber the benefits to be derived from the cut-off road. He stated that the work would cost about \$70,000 and would be paid out of the state gasoline tax.

Immediately after his talk E. H. Woodford, secretary of the chamber, made a short talk, attacking Carlson's arguments and declaring that the work would cost twice that much.

Exhaustion Of King Worries Physicians

LONDON, Jan. 3.—(U.P.)—King George's condition remained unchanged tonight and an authoritative statement issued at Buckingham palace said his majesty's recovery must be a "long and anxious problem."

The determination of the king to recover is still great, the statement said, but the exhaustion is as much weariness of mind as of body.

"Though there is an increasing sense of the burden of his illness, the will of the king to live is

there," the statement said. The night bulletin, issued at 8 p. m. said:

"The king had a fair day. There is no change to report in his majesty's condition."

The morning bulletin had announced that his majesty passed "a restless night."

For the first time in several days the ray therapy treatment which previously had aided the king was administered again this morning.

Bolivia, Paraguay Sign Peace Pact

WASHINGTON, Jan. 3.—U.P.—Under the auspices of the Pan-American conference, Bolivia and Paraguay tonight solemnly agreed by treaty to settle their border conflict by peaceful means.

Meeting in the governing board room of the Pan-American Union

building Diez De Medina, Bolivian minister to Washington, and also delegate to the conference, and Juan V. Ramirez, Charge d'Affaires of Paraguay, signed the protocol of conciliation negotiated by the Inter-American conference.

JURY VENIRE COMPOSED OF MEN

RIVERSIDE, Jan. 3.—U.P.—Questioning of jurors in all male venire was started late today in the murder trial of Gordon Stewart Northcott after the defense had succeeded in forcing an insanity element into the case.

Noel Savoy, counsel for the asserted slayer of four southern California boys, made an unsuccessful challenge of the legality of the jury panel, on which no women appeared.

Superior Judge George Freeman overruled the defense objection after check of the clerk's records showed the venire not to be a special one.

Deputy District Attorney Earl Redwine, conducting the prosecution, declared he would be satisfied with the first 12 men

Weapon Carrier Gets Jail Term

MARTINEZ, Jan. 3.—Pleading guilty to a reduced charge of carrying a concealed weapon, Paul Moon was sentenced to serve a six months term in the county jail by Justice of the Peace Frank L. Glass.

Moon was arrested by Deputy Sheriff R. L. McNamara and Steve Neilson after he is alleged to have held up two pedestrians and told them to pass along when he found that neither was the man whom he knew to be carrying home his winnings in a card game.

Moon was originally charged with attempted robbery.

Wealthy Banker Ends Own Life

LOS ANGELES, Jan. 3.—U.P.—Lemuel L. Henz, 45, wealthy ex-banker of Sioux City, Iowa shot and killed himself here today, police reported.

Henry's wife who is a graduate of Columbia University, could give no reason for his action. They had been married but two months, she stated.

Moitoza, Nunes Charge Dismissed

MARTINEZ, Jan. 3.—Superior Judge H. V. Alvarado today dismissed charges against M. M. Moitoza and J. F. Nunes of San Pablo. The two were arrested in San Pablo recently by county officers and charged with maintaining a public nuisance.

STRAIT SPAN PROFITS BIG

Net profits for the American Toll bridge company operators of the Carquinez bridge during the year 1928 showed an earning equivalent to 8 cents per share, compared to two cents per share in 1927, according to a statement issued yesterday by Oscar Klatt, president of the toll bridge company.

The tremendous increase in profits is due to unprecedented increase in traffic over the Carquinez and Antioch bridges during the year. Klatt estimated that during the year 1,120,118 vehicles passed over the Carquinez bridge, compared to 964,250 in 1927. This was an increase of 18.5 per cent. Passengers over the bridge numbered 2,836,096 during the year compared to 2,438,972 in 1927, an increase of 16.2 per cent.

Klatt stated that traffic and revenues for the year far exceeded predictions or estimates. Klatt stated that while the Carquinez bridge traffic exceeded all predictions, traffic over the Antioch bridge was startling. More than a 50 per cent increase was shown over 1927.

All highways and approaches to both the Antioch and the Carquinez bridges were reported in excellent condition. This fact, coupled with the increase in auto registrations in the state and the constantly increasing tourist traffic, all seem to presage that the traffic forecast of company officials is conservative.

Concord Vets Build Bridge To Aid Buddy

CONCORD, Jan. 3.—Joseph Semas, local rancher, returned from the World War crippled and unable to perform heavy work. He didn't drift about, looking for an easy job, but went to work at the only occupation he knew, farming.

Running through Semas' farm is a creek, dry in summer and a raging torrent in winter. Semas wanted a bridge across the stream but could not afford to hire bridge builders and was unable to build the bridge himself.

Members of the Concord Post of the American Legion learned of his predicament and went to his aid. In a short time the creek was spanned by a brand new bridge.

Justice Court Shows Increase

Fines and fees collected during the last year in the Richmond justice court show an approximate gain of 10 per cent over 1927, according to a financial report of Justice of the Peace Arthur A. Alstrom, released yesterday.

A total of \$11,556.25 in fines and fees were collected during 1928. Of this amount, \$6,471.50 was for traffic fines; \$3,400 for violations of the Wright Act; \$100 for miscellaneous misdemeanors and \$1284.75 for civil cases filed.

MANY ASSIST BAY SPAN HERE

With no opposition to the site for the proposed bridge across San Pablo bay from Richmond and San Rafael being presented, the hearing of the application of Oscar Klatt for permission from the war department to construct the span was held in San Francisco yesterday afternoon.

City Attorney Thomas M. Carlson, speaking for the delegation representing the city of Richmond, showed that public convenience and necessity required the construction of the bridge. He told of the present crowded traffic conditions on holidays at the Richmond San Rafael ferry and stated that increasing traffic makes construction of a bridge necessary. Thousands Of Homes Leveled By Fierce Gale

TOKYO, Jan. 4.—(U.P.)—Approximately 50 dead in blizzards sweeping the northwestern coast of the Japan sea and 30 sailors lost at sea was the incomplete toll this morning in one of the worst Japanese storms in a dozen years.

The Prefectures of Niigata and Tokama, reported the greatest loss of life. More than 20 persons were known dead in each prefecture. More than 800 homes were demolished or damaged in Tokama prefecture and 200 in Niigata.

The steamship Tokokuni Maru went aground near Nagasaki, enroute to Shanghai and sank with 70 men. More men swam ashore. Six bodies were recovered.

The liner Maru, arriving at Tsu-ruga was badly damaged. Officers of the ship reported the worst storm in years raging off the coast.

Other deaths from isolated towns in Niigata and Tokama area were reported as meager details of the storm damage reached the capital.

Relief agencies were reported rushing medical supplies and food to the thousands of sufferers in the stricken area. Because of the isolation of the area the full extent of the storm will probably not be known for several days, officials said.

Scout Relief Test Set For February 9

Richmond will be "hit" by a "blaster" Feb. 9.

At least that is what the Disaster Relief Committee of the Richmond Boy Scouts council laid plan for yesterday afternoon at a session in the Hotel Carquinez.

Lloyd Bolt, chairman of the committee held a conference with C. C. Kratzer, Chief of Police Dan Cox, assistant Fire Chief J. J. Barry and Scout Executive Robert Cox yesterday to discuss the program.

This will be the first time in the history of the local Boy Scouts

that an extensive disaster relief program will be carried out. The fire and police departments, and the Red Cross are cooperating with the Scouts in this venture.

The primary purpose of the program is to train the Boy Scouts in first aid work and to prepare them in case that this city is ever struck by a flood, fire or hurricane.

The plans as arranged yesterday are only temporary but a definite decision is expected to be reached within a few days.

Martinez Wars On Span Gang Influx

MARTINEZ, Jan. 3.—Martinez is guarding itself against the influx of undesirable reports when the Southern Pacific railroad bridge starts construction here this spring.

An ordinance introduced at the city council session last night restricts the number of pool halls and billiard rooms in this city to one to every 2000 persons. It does not affect the five pool halls now in operation here.

The move was made at the request of the pool room operators who declared that they feared a large number of "chain pool rooms" would be opened here when the bridge construction work starts.

The council also introduced an ordinance restricting issuance of slot drink permits. Under the terms of the ordinance any person applying for a permit must put up a bond and must be able to testify to his moral character. Infraction of the law would revoke the permit and the bond would be declared forfeited.

First Payment On Tax Over 2 Million

MARTINEZ, Jan. 3.—First installment of taxes paid to Martin J. Jody, county tax collector, totaled \$2,163,263.98, according to a report made public today.

Tax payments started Oct. 12 and continued during the final days of the presidential campaign and closed in December.

Jody reported that in 1928 \$2,177,333 more than 1927 were paid to tax collectors. This figure does not include the several thousands in worthless checks which have been turned over to the district attorney.

Widening Of Road At Pinole Started

Work on moving houses and other buildings on the north side of Main street in Pinole was started yesterday by Herbert D. Baker, Richmond housemover.

This is the first actual step taken to widen the state highway and break the famous Pinole "bottle-neck."

A crew of 12 men are working under Baker and the job is expected to be completed within a few days.

All costs of right of ways in excess of \$25,000 will be borne by

Pinole that amount having been appropriated in the budget of Supervisor Zeb Knott for the improvement.

Legal steps to widen the highway to 89 feet are now under way. The right of way is to be turned over to the state without cost and the paving will be done by the state highway commission. Court proceedings to condemn right of ways and to form a highway improvement district embracing the entire area are now under way.

THE VALUE NOT ALWAYS SEEN OF SCIENTIFIC STUDIES

The visit of Ferdinand Ellerman, a distinguished astronomer, has aroused a keener interest in the subject and has led to the question: "What does astronomy profit the world?"

Students of astronomy will assert and rightly, that its followers gain an intellectual practice not to be found in any other subject and that this alone justifies the cost and effort. What, we have been asked, will be the merchantable product of an observatory that will cost millions of dollars and enlist numerous highly paid attendants?

That query too may be answered concretely. It is probably impossible to arrive at anything closer than a rough guess at the total cost of astronomy. But it could have been very much more than it has been and still show a profit. For astronomy, first and always has been the hand on the shoulder of commerce. Without it the world would still be trading in small coastwise vessels, incapable of plunging into the vastnesses of the oceans and out of sight of land. Without astronomical precision the surveyor would be dependent upon very uncertain markings for his points of departure. Land limits and even values would be chaotic and disturbed.

Either navigation or surveying could write off the total cost of astronomy and find a margin well profiting the indulgence in "star-gazing."

But there is much more that can be placed on the profit side of the astronomical ledger. Many of the devices with which humankind quickens its talk, entertains itself after hours of work and makes safer its transportation are due to the by-products developed by science from hints first thrown out by star students. The helium that fills the dirigible and the iron stream that carries the radio and telephonic voices are the gift to industry and life in general of the intent watcher at the eye-ends of telescopes. Practical metallurgy owes a debt to the man who correlated the facts of spectroscopy on earth and in the skies.

If astronomy had done none of these things but had become a matter of general interest to the world's proudest persons, it would have contributed to thought enough to repay its cost. We do not know a mind which could not contemplate the sizes, the weights and the precision of movement of the heavenly bodies without trimming down self-esteem to a moderate and personable pride. Astronomy, which looks both at the most stupendously large and the most amazingly small aspects of the material universe comes nearer presenting mankind with a true conception of the God-head than theology with its abstractions piled upon its dogmatic controversies.

SEASON OF AILMENTS

At the beginning of the long season of colds the loss in efficiency, wages and the cost of medicines and doctor's fees is mounting rapidly. With the first intimation of the autumn and winter season come the annual grief and tribute to diseases of the breathing tract. As the weeks pass common stock in the aspirin trust becomes more valuable.

A Chicago newspaper remarks that the annual American loss in working times through disease and disability is at least \$3,000,000,000. Preventive medicine can reduce that contribution to waste and in doing so can save the people millions that go toward the extraordinary expenses of illness.

Costly though sickness is, however, nothing is gained and much may be lost by trying to evade it. One should try to avoid sickness but when it comes to dodge its responsibilities and to substitute ignorant home practice for scientific care is foolish. By stopping work, going to bed and calling the doctor at the beginning of an infection people often will escape pneumonia and other dangerous diseases.

The more people know about right living the healthier and happier they will be. The American Medical Association could do an immense service to humanity by putting the common tenets of health before the people in the form of institutional or group advertising.

BEAUTY

Dear Miss Lane

I have a very thin neck and my shoulders and chest are too bony to be attractive. Most of the new evening gowns are quite low cut but they look terrible on me because I am so scrawny. How can I fill out the hollows?—H.P.

Until you fill out the hollows and give your bones a decent covering of flesh, for heavy on's sake wear an evening dress that isn't cut so low. What if low cut dresses are the style? The important thing to remember in choosing your clothes is to have the things which become you rather than those which are the "last word."

After you have put on some more weight then you can get out the sequins and cut as big pieces as you want to cut of the back of the dresses. Plan a diet for your self which consists of plenty of milk in addition to other nourishing foods and make every meal a well-balanced one. Don't break fast on a cup of coffee and a slice of toast and lunch on a sandwich and tea. Eat natural and sensible of that sort will help you to add those few pounds that are essential if you want to cut all of that scrawny neck and those bony shoulders.

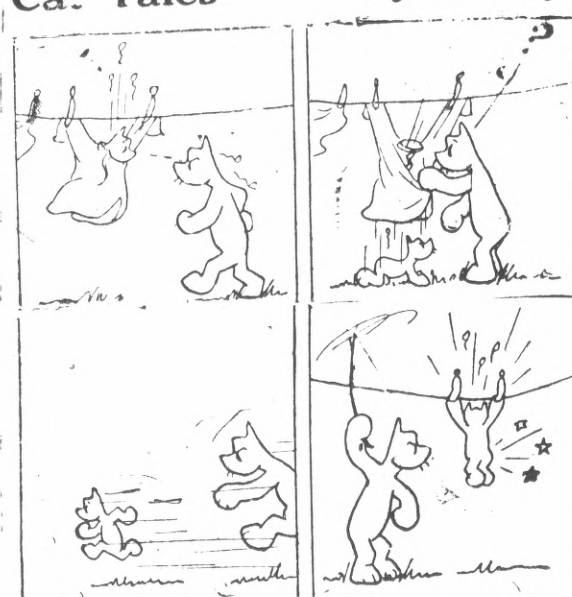

If you can snatch a nap after your midday meal you will find that it will help you to gain weight. Plenty of sleep every night is also important.

Dear Miss Lane

Do you think long nails are vulgar looking? Yes, when they're allowed to grow until they look like talons.

WOMEN CAUSES MUTINY IN SEA FILM

"Search for the woman" is the old French phrase that sums up the Gallic idea of the probable cause of most of the troubles that befall mankind and worldly experience proves it to be well founded. It is revealed in a most powerful drama of the sea, "The Singapore Mutiny," which comes to the California theater today for a stay of two days.

Presenting Jean and Estelle Taylor in the fascinating role of an adventurous woman, the picture is a Singapore-bound cargo steamer in the hands of a mutinying crew of officers and crew of the tramp freighter in a deadly feud that leads to warlike, bloody and shipwreck as the story develops.

"The Singapore Mutiny" is declared by critics who have seen it to be one of the outstanding melodramas of the season.

It was directed by Ralph Ince for FBO. Ince also plays the leading role opposite Miss Taylor that of a giant stockholder bull who rises to heroic stature in an emergency that calls for real manhood he has undergone beneath his mask of civility. All of the action takes place at sea.

Other prominent players in the strong cast are: James Mason, Gardner James, Will Living, Martha Mattox, Harry Allen, Carl Axelson, Robert Garland and Frank Newberg.

THE HOME TOWNERS

BY JOHN LEARY PELTRET
FROM WARNER BROS. ALL TALKING VITAPHONE PICTURE
BASED ON THE COMEDY BY GEORGE MACOHAN

SYNOPSIS—Arnold asks Bancroft, his boy pal, to be best man and bring his wife. The pal comes, sees and is suspicious. Starts row. Engagement off as a result. Brother of sweetheart returns present, meets Bancroft and berates him for his small town mind.

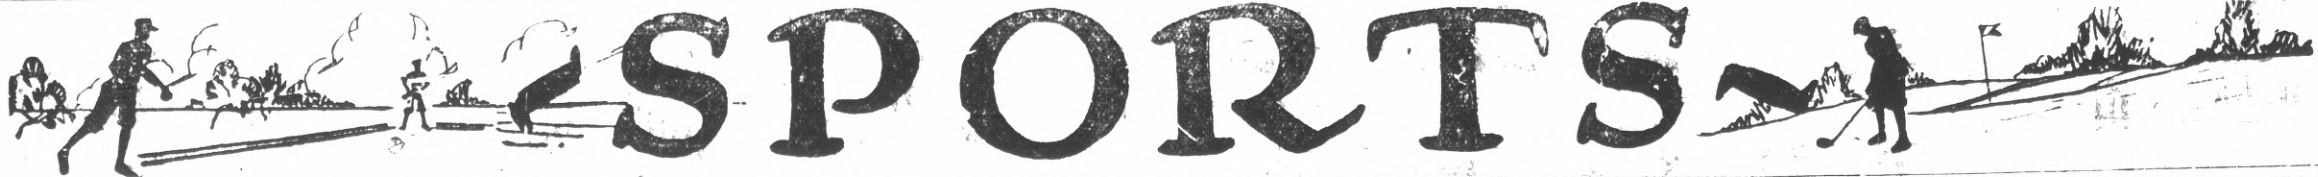

CHAPTER X
THE butler comes in and hands Arnold the jewel case enclosing the wedding bracelet. He throws it on the lounge. Mrs. Bancroft has left the room. Bancroft has been holding back his emotion but breaks down and begins to sob. Arnold failing to quiet him, calls Mrs. Bancroft. She abuses and pets him and he tries to get hold of himself and at length manages to pull a smile.

DURING the time Mrs. Bancroft is trying to calm her husband Arnold leaves the room. When Bancroft has pulled himself together a little, he goes over and sits on the lounge. Almost unconsciously, he picks up the jewel case, fumbles with it and the cover opens. Without being noticed Bancroft looks at it a moment, then slips the bracelet in his pocket and puts the case on the lounge.

HEARING that Arnold, apparently, has regained his composure, Arnold comes back into the room. Passing the lounge he notices the jewel case and picks it up. He looks at it a moment and then opens the case to find it empty. Astonished he makes an exclamation which the Bancrofts hear. Asked the cause he holds out the empty case for them to look at.

THE butler is called in and says that the case never left his possession and had not been opened since the time it was handed to him by Wally. Arnold thinks it may be that Beth did not put the bracelet in the case, as a sort of token. Then Bancroft suggests that Arnold call up the Calhoun house and get in touch with Beth and Wally to learn if the bracelet was really sent.

GEORGES ASKS TO BATTLE DEMPSEY

PARIS, Jan. 3. (UP)—Friend of Georges Carpentier declares that he has only one long ambition, and that is to have on track Dempsey again in a "battle of the giants."

Carpentier, who is having trouble with his health, is a French national heavyweight champion, who, after accumulating a fortune on his career, has never forgotten Dempsey for that short but terrible beating at Bagley's thirty acres.

Georges is convinced that he has not gone back as far as Dempsey has and believes that he is as fit as any of the present day lot of heavyweights, now that Gene Tunney has abdicated. The new champion, Dempsey, is believed to be a much better fighter than the one who was beaten by him.

It is the opinion of those who know Carpentier that he is not yet fit to fight Dempsey, but he is sure to be in the ring again, and he is sure to be in the ring again, and he is sure to be in the ring again.

Georges is now touring Belgium, heading in a music hall troupe. He dances and sings, and should keep his legs and lungs in shape, but he has little time for boxing and it is doubtful if his famous lightning left is as flashy as it once was.

U. C. Cage Team Wallops Kansas In Fast Contest

OAKLAND, Jan. 3.—UP—Short accurate passes and good basket shooting gave the University of California's basketball team a 33 to 31 victory over the University of Kansas quintet here tonight.

Except for flashes of speed at the start of the game and at the opening of the second half, the visitors failed to frighten the Golden Bears. The score at the end of the half was 22 to 11 in favor of California.

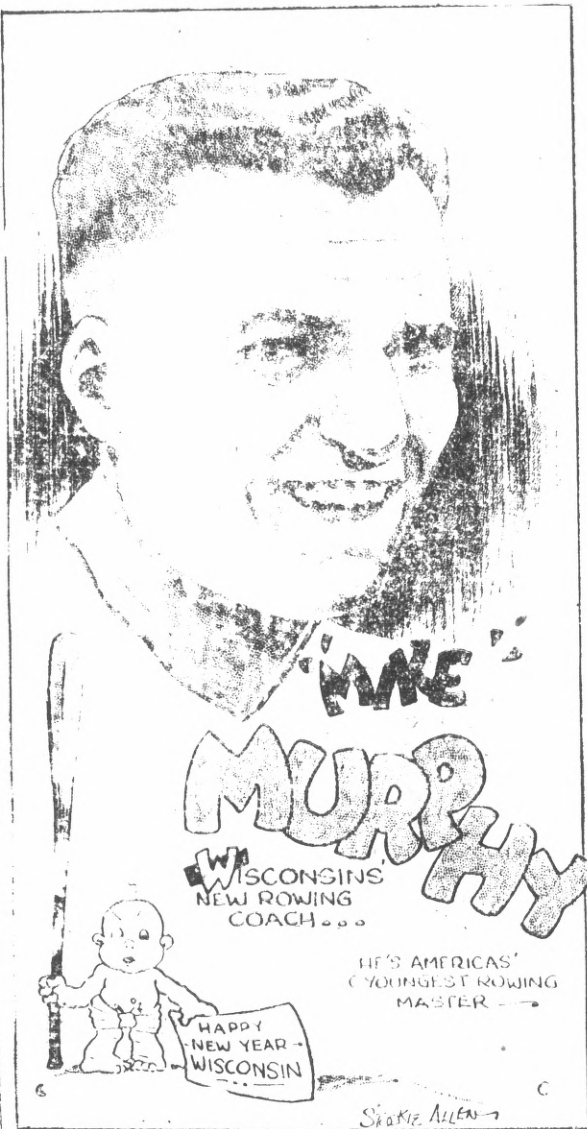

Captain Verne Corbin, center of California, was the outstanding player of the contest although he was forced from the game early in the second half by four personal fouls. He had scored eight points at the time but Leonard Stevens, Bear forward, took advantage of his absence to gain individual scoring honors with 9 points.

The Kansas guards featured the offensive of their team, Cox making six points and McGuire four.

BRIDGEPORT, Conn. A gold, five and seven prize, will be given in a poster contest being conducted by Henry W. Condon Post, the American Legion, in the public schools.

SPRINTS CHAMP SERIOUSLY ILL

GLENDALE, Jan. 3.—(UP)—Clay Wycoff, national sprint champion, is critically ill from an operation for removal of his tonsils and may not be able to compete in any track meets this spring or summer. It was learned today.

The 19-year-old Glendale high school star has been ill for three weeks and is in such a weakened condition that he is unable to talk. He is allowed no visitors at a local hospital and it is reported that he has been unable to take food in a natural manner for two weeks.

Blood transfusions, have been resorted to, strengthening him and two operations have followed the first one, his physician announced. "He suffered a reaction after an operation, but for removal of his tonsils which was performed to 'aid this wind,'" a friend of Wycoff's and a member of the Southern California football squad, have been furnishing blood needed by the stricken athlete.

Hayward said today, even in the

Richmond Five To Join P. A. A.

Court Wallace Ferrar of the local Y. M. C. A. has entered his team in the P. A. A. and will weigh in his team tonight either in Oakland or at the local Y. M. C. A. gym. The following men are probably those to be on the squad, Christian, Sassone, Johnson, Boschetti, Black, Mello, Drexel, Wakeland, Maloney and Craig.

American Boy Star On Team

HULL, Eag. Jan. 3.—(UP)—One of the most popular members of the Hull soccer football team is Johnny Gibson, who was born in the United States.

"Attabo, Gibby," "Go get 'em, Johnny," and other Americanisms frequently greet Gibson when from his position at right back he cleverly checks the advance of the opposing team towards his goal.

event of a speedy recovery, Wycoff would be unable to enter any meets this spring.

It also appeared doubtful if he will be able to race Percy Williams, Canadian youth who defeated him at the Olympic games, in a scheduled duel at the National A. A. U. events in Denver in July.

McRacken Cage Team Defeats Oleum Quintet

The McRacken basketball squad of the Richmond basketball league, playing its first game of the new year last night, defeated the Oleum team 23 to 19 in a fast game at the Longfellow junior high school gymnasium.

The game was marked by numerous arguments in the first quarter of the game and stiff, hard playing in the remainder of the contest.

Gillian was high man for the winners with 12 points, and Beck, of Phillips University, Okla. was high man for the losers with 11 points.

The lineups:
McRackens (23): Gillian 13, De Baere, Viera, 4, Hoskings 2 forwards; Millevich 2, center; Thierte, Swenson, Baldwin 2 guards.

Oleum (19): Beck 11, Hoyle, Wilkens, Atkinson forwards; Nisson, Hendrickson 2, centers; Elise 2, Taft 4, guards.

ENRIGHT REMEMBERED
PITTSBURG, Pa.—The W. F. McNulty Post, the American Legion, has asked that new public playgrounds be named after Thomas F. Enright, among the first three killed in the war.

LEGION PLANS STATE GRID LEAGUE

Organization of a state-wide American Legion football league may be completed at a session to be called in the near future by Judge H. L. Bacon, of Oakland. Judge Bacon is chairman of the State Legion committee.

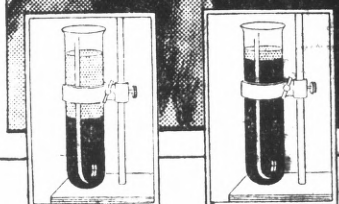

Whether or not Richmond will have a team in the league has not been announced here. It is believed, however that this city will have some representatives among the 25 teams to be entered by the Legion Posts.

The league is expected to start early next season and to continue until late in the year.

Arrangements are also being made for the annual American Legion junior baseball tournament which was won last year by the Montgomery Ward team of Oakland.

BOXING GIVEN O. K.
MONTGOMERY, Ala. American Legion posts may conduct boxing exhibits any place within the state of Alabama, the attorney general has ruled.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking Nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when Nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping. Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling, because it is so pure and harmless, and it works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.
